

## USES

**Bench cutting machine for geological laboratory**

## CHARACTERISTICS

### Electrical

- Motor IP 55 - 550W (230V. Single phase)
- Electrical protection included in the command
- Emergency stop

### Cutting shaft

- Speed of the disc : 1500 tr/min
- Ø25.4mm (h6)

### Disc

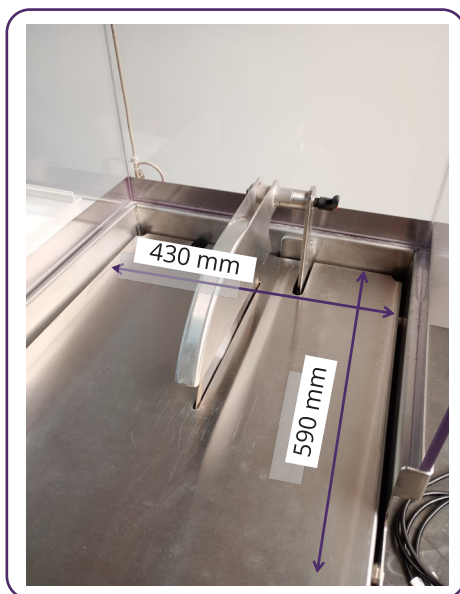

- Housing of the disc for disc Ø250 mm
- Provided disc : diamond disc with continuous rim Ø250 mm for all type of rock
- Disc housing adjustable in height

### Structure of the machine

- Cutting table sur plots anti-vibratory plots
- spray lateral and rear device
- Spray front device, easy use
- Frame on anti-vibratory foot
- Stainless steel tray
- Lighting of the cutting station

### Cooling

- Cooling by bubbling
- Water discharge: Valve G1' 1/4
