

DESCRIPTION

This simple and robust turn-table allows the manual grinding and polishing at a variable speed from 100 to 200 Rpm. on any type of polishing plates with diameter 200 to 250 mm.

Its torque is always sufficient for the **geological** samples as well as the **metallographic** ones.

CHARACTERISTICS

- Compact machine with housing assembly
- Steel single piece salvage bin
- Control panel with digital adjustment and display of the rotation speed of the tray and irrigation control
- 2 directions of rotation

Electrical

Single phase 230V 50 Hz
Output 0,4 kW

Watering

Water supply Ø 15 mm, from the rear.
Water discharge Ø 25 mm, from the rear.
Adjustable and retractable watering system.
